

SmartPack Central Management Software

SmartPack monitors, manages and reports your environment and energy data in locations such as Data Centers, Multi-Branch Businesses and Remote stations.

Environmental Monitoring

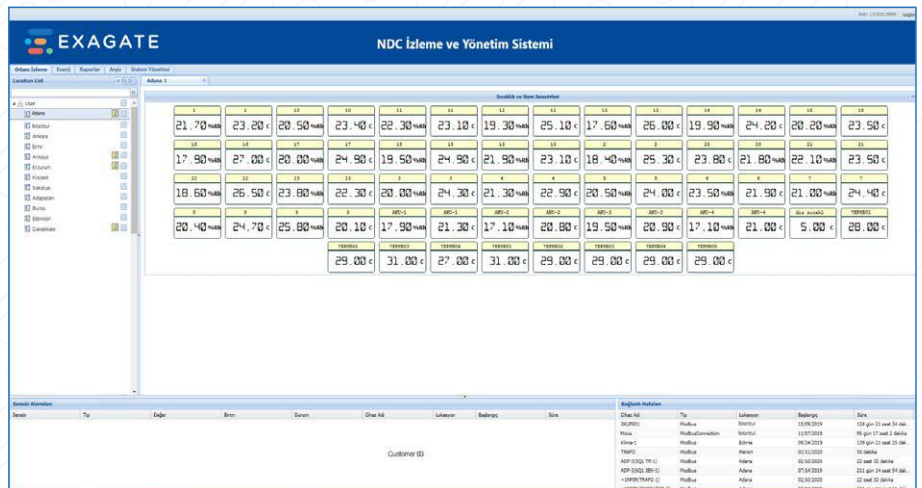

SmartPack monitors changes in the environment such as temperature, humidity, water leakage, air quality

Energy Monitoring

Monitors the energy consumption of your IT and infrastructure equipment at your facility

Power and PUE Analysis

Ensures your energy efficiency in your Data Center and System rooms

Setting Alarms

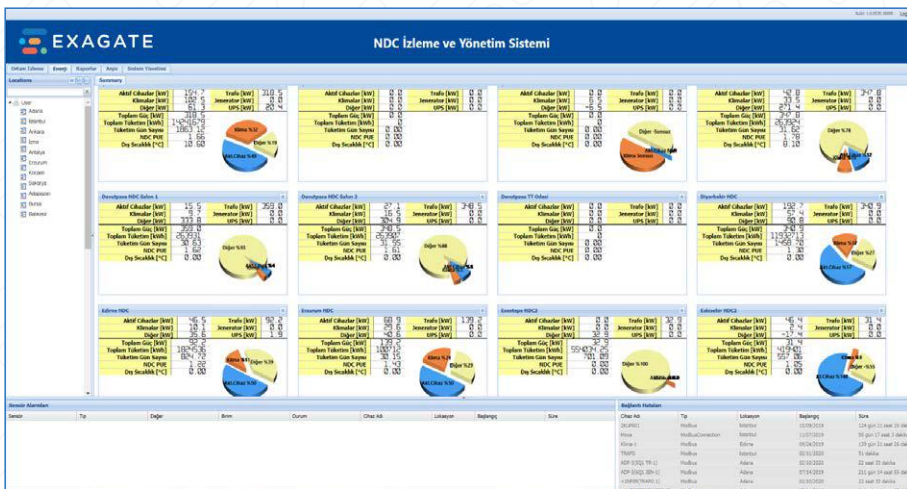

Creating an alarm for threshold values that users can set

Management

Provides system control of scenarios created on alarms

Reports

Creating historical environmental and energy monitoring reports

Map Support

Tracking locations via online and offline maps

Security

Enabling users to access devices with role-based access control

Billing

Invoicing over your equipment's electricity consumption

Camera Support

High resolution camera support

Integration

- Wide range of 3rd party device integration
- Integration for all kinds of software services with wide protocol support

Entry / Exit Control System

Card door entry and exit monitoring system

Easy Installation and Use

Easy setup and user-friendly interface

Central Monitoring

Web interface that can monitor multiple locations on one screen

Single-line Diagram

Dynamic alarm and visualization feature with visuals of your facility's Single-line Diagrams

Schematic Diagrams

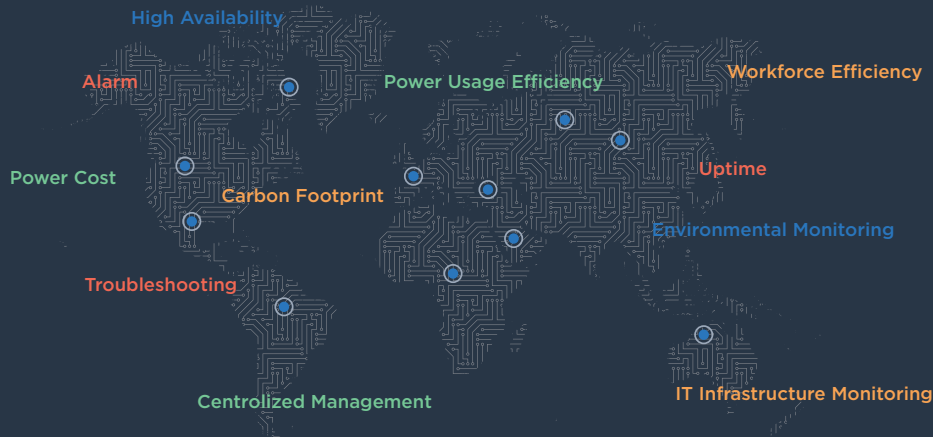

Setting alarms on the dynamic diagram of the location

SmartPack Environmental Monitoring Reports

- Temperature, humidity, air flow, air quality, energy, etc.
- Water leakage, smoke, quake, movement, etc. alarm reports
- Remote station reports
- Connection error reports

SmartPack Energy Monitoring Reports

- Efficient energy use (PUE) reports
- Carbon emission reports
- Energy consumption reports
- Energy cost reports
- Cooling capacity reports
- Energy trend reports
- Cooling and energy capacity reports

Yeşilce Mahallesi, Doğa Sokak, Kökten Plaza, No:6 Kat:2 Kağıthane, İstanbul / Turkey
